# The New Deal

Even Washington's Summer is Changed by New Deal Rush to Country Starts Ickes Allows More Time to Play ... Mint Julep's the Pet Dram . . . And Everybody Hates the Weather

By RODNEY DUTCHER

Sam does something about reducing the debt to payable proportions. The English have finally discovered that they have paid half the original obligation, but that they owe more than they started to pay. Interest is a wonderful thing, it has a way of doubling the amount of the debt in a startlingly short time if it is not paid up regularly. It isn't much wonder men have always hated usury, and that the average debtor comes to dislike the average debtor comes to dislike the average debtor comes to of all this when they started borrowing, and the Americans should have some fun.

Lorraine Seersucker

Suits of Genuine Lorraine Seersucker fulfill a double summer role First, they're so smart . . . so generally accepted as the right thing to wear . . . that you would wear them, even if they were not so utterly cool. Second, they're so cool . . . . so light, so breeze-admitting, so delightful . . . . that you would be tempted to wear them, even if they were not so utterly smart. Unconditionally guaranteed not to shrink or fade. They wash as easily as your shirt. . . . See the latest pattern ideas we are showing in this superior suit. Several of them provide a complete summer wardrobe.

# of Baptists Will Be Held June 12

Saturday evening to meet her fiance.

Mr. Kahn hold a responsible posideredth anniversary of the organiza-

The first Illinois convention was held in White Hall in Jure, 1834, and tentative plane were made for holdng the state convention here this oming October but it has grown to uch large numbers that it was found to be impracticable to entertain such a convention here and it was then order that White Hall may have some part in the celebration of the anniversary a rally is to be held here next Tuesday in the Whiteside Park, and very worthwhile program has been rranged, with prominent speakers nd musicians taking part.

The local arrangements are in charge of the deacons, trustees and women of the First Baptist church. Everybody is nevited to come and ring baskets for a basket dinner The board of deacons of the local hurch include William Teter, J. F. Gwillim, Albert Smith, Buel Fair, Frank Vandeveer, Ernest Rhodes, J. Greer, Cleve Corder, James Coates, and John Neece. The trustees are Henry Pruitt, A. M. Nevius, William 7. Short, W. D. Webster, William wens, Fred Wemken, Virgil Thurn, Ela Walton.

# Does the Farmall 12 Cultivate? And How!—25 to 33 Acres a Day

IN the McCormick-Deering Farmall 12 Tractor you get all the advantages of Farmall design when it comes to cultivating. These exclusive patented Farmall features—quick-dodging ability, forward ocation of the gangs, and braking of either rear wheel through the steering wheel for square turns—are built into the Farmall 12. Equipped with the McCormick-Deering 2-row Cultivator, the Farmall 12 has a capacity of 25 to 33 acres a day in corn, cotton, potatoes, and other crops planted in rows 28 to 44 inches apart.

Come in and see this amazing, efficient, economical Farmall 12 and its cultivating unit.

See it here! Goodyear test drivers burned out brakes-wracked cars - pounded the roads night and day - and it kept its grip twice as long as other tires!

Ordinary treads can't stand the strain of modern driving.

But come in today and see a tire that will!

The new "G-3" All-Weather! It has a wider tread - flatter tread - more rubber in the tread - more non-skid blocks in the center of the tread - and gives 43% longer non-skid mileage than the best previous Goodyear

how you drive - this tire will give you more miles of safety-AT NO EXTRA COST!

Watch the rest of the industry try to copy this amazing tire. Watch them try to duplicate Goodyear's claims. But, remember, you have to have "non-skid" before you can have "non-skid mileage." And to have "non-skid," you have to have GRIP where you see it here-GRIP in the center of

the tread - the place where it counts, because it's the spot where the tire contacts the road. Look at the grip on this Goodyear Tire and ask yourself why buy any tire that lacks this safety? And keep in mind that you cannot successfully build this type of non-skid tire without the extra-durability of Supertwist cords.
